# **Drafting and Design Technology (15.1301)**

#### Overview

Program Coordinator: Jasmine Washington - jasminewashington@cltcc.edu

# **Program Description**

The Drafting and Design Technology program is a two-year technical program designed to give the student essential knowledge and skills required for efficient and productive performance in the drafting field. Central Louisiana Technical Community College grants a degree or diploma to students upon satisfactory completion of the curriculum and assists in placing students in gainful employment. Certificates are also offered for those needing a background in drafting without gaining all of the skills required for employment as a drafter.

# **Student Learning Outcomes**

- 1. The students will demonstrate the ability to produce a drawing using Geometric Construction (Examples: lines, circles, ellipses, and tangents.
- 2. The students will identify the purpose, rules, and basis techniques used to dimension technical drawings and apply proper dimensions, notes, and symbols.
- 3. The students will demonstrate the basic concepts of CADD, identify the graphic display & screen editor, and demonstrate basic CADD commands.

### Diploma

TD – Drafting and Design Technology

### **Exit Points**

CTS – Engineering Aide II

# **Special Comments**

Advanced discipline courses require approval from advisor.
